Summary

Hi there! I am a student and an aspiring entrepreneur pursuing a Bachelor of Technology in Computer Science and Engineering from Amity University, Haryana.

I always enjoy connecting the dots and creating innovative solutions to modern problems. My strength lies in my ability not to be deterred by difficult circumstances and to maintain my composure in stressful situations. I am a huge fan of open-source and have contributed to numerous such projects. Besides, I have excellent communication skills and can precisely convey my thoughts and ideas.

In my high school, I have taken on numerous leadership roles. Specifically, I headed the Technology Club (SynTech club) as its president for two years, during which we organized multiple workshops and intra-school coding and gaming competitions under the guidance of my incredible teacher.

During my leisure time, I love listening to music, reading books, exploring new food, going out with friends, and playing Counter-Strike: Global Offensive.

I am graduating in June 2025 and am interested in internships and part-time full-stack development roles (work from home). Please do not hesitate to reach out to me by email or phone.

Experience

Project Lead Developer

Chaoz Gaming

Feb 2022 - Dec 2022 (11 months)

Founder

The Xolentum Project

Aug 2020 - Dec 2021 (1 year 5 months)

Education
